

INSTITUTE FOR APPLIED FIRE SAFETY RESEARCH

Smoke tests (ARGE Standard) – Haifa, Israel:

IFAB successfully carried out smoke tests according to ARGE – Part 1. The tested new funicular vehicles are operating inside a tunnel to mountain Carmelit (in operation since 1959).

Car battery fire resistance services from IFAB

IFAB has extended its services to the automobile industry by being able to carry out fire resistance tests of car batteries according to:

- GB/T 31467.3, Lithium-ion traction battery pack and system forelectric vehicles – Part 3: Safety requirements and test methods
- E/ECE/324/Rev.2/Add.99/Rev.2, Annex 8E, Fire Resistance

IFAB was contracted by the Federal Institute for Materials Research (BAM) for the SUVEREN research program. IFAB will carry out the challenging fire tests with Li-Ion batteries in the project. See SUVEREN website for further information: <http://www.suveren-nec.info/>

IWMA
International Water Mist Association

IFAB is once again an Honory Sponsor of the IWMA Conference!

The 18th International Water Mist Conference (IWMC) will once again – after 2009 – take place in London. The event will be held on 19th and 20th September 2018 at the Grange City Hotel, near Tower Hill Station. Organizer is – as always – the International Water Mist Association (IWMA).

For further information or registering please see the conference website or contact:
